

Brainstorming & Idea Prioritization Template

Date	
Team ID	
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Mohammed Sadia Rahmatunnisa	AI-based Crop Recommendation System	Artificial Intelligence	1
2	Akhil Varma	Smart Fertilizer Recommendation	Machine Learning	1
3	Done Divya	Plant Disease Detection	Computer Vision	2
4	Ullingala Swathi	Smart Irrigation System	IoT & AI	2
5	Yamini Karumuri	Weather-based Crop Advisory	Data Analytics	3

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
1	OptiCrop: Smart Agricultural Production	High	High	1	Yes

	Optimization Engine				
2	Plant Disease Detection	Medium	High	2	No
3	Weather-based Crop Advisory	Medium	Medium	3	No
