

Project Demo Planning

Date	03 July 2026
Team ID	
Project Name	OptiCrop – Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Project Demo Planning:

This document outlines the demonstration plan for the OptiCrop application. The demo introduces the project objectives, explains the Machine Learning solution, demonstrates the crop prediction workflow, and concludes with a question-and-answer session. Responsibilities are distributed among the team members to ensure a smooth presentation.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Explain the problem statement, objectives, and motivation behind OptiCrop.	2	Mohammed Sadia Rahmatunnisa
2	Solution Overview	Explain dataset, Machine Learning model, and technologies used.	3	Akhil Varma
3	Live Application Demo	Demonstrate Home, About, Prediction Form, and Crop Prediction Result.	4	Yamini Karumuri
4	Model Performance	Present model accuracy and explain why Random Forest was selected.	2	Ullingala Swathi
5	Future Enhancements	Discuss future improvements and possible deployment features.	1	Done Divya
6	Question & Answer	Answer evaluator questions regarding the project.	3	Mohammed Sadia Rahmatunnisa

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for an AI-based crop recommendation system.
2	Solution Overview	Describe dataset, preprocessing, model training, and technologies used.
3	Live Feature Demonstration	Demonstrate the website by entering sample values and displaying the predicted crop.
4	Q&A Session	Clarify questions and explain project implementation details.
